Deposit Account Agreement – Card Purchase and Withdrawal Limits

Limits are based on the card you use and which type of ATM you use.

DAILY LIMITS				
<i>Card Type</i>	<i>Purchase Limit</i>	<i>Chase In-Branch ATM Limit</i>	<i>Other Chase ATM Limit</i>	<i>Non-Chase ATM Limit</i>
<i>Chase Business Debit Card</i>	\$10,000	\$3,000	\$1,000	\$500 (\$1,000 for accounts opened in CT, NJ, NY, TX)
<i>Chase Platinum Business Debit Card</i>	\$15,000	\$3,000	\$3,000	\$1,000
<i>Chase Business ATM Card</i>	\$0	\$3,000	\$1,000	\$400 (\$1,000 for accounts opened in CT, NJ, NY, TX)

These are the limits that come with your card, but you can request a different ATM or Purchase Limit (subject to approval). If your checking account is changed, we may provide you a new debit card that aligns with that account.

When you use a Chase ATM it is either considered an In-Branch ATM or Other Chase ATM.

- **Chase In-Branch ATMs** are ATMs located inside the main area of a Chase branch that you use during the branch's posted business hours.
- **Other Chase ATMs** include ATMs located inside the main area of a Chase branch that you use outside of the branch's posted business hours, ATMs that are separated from the main area of a branch by another set of doors, drive-up ATMs and other Chase ATMs not located in or near a branch.

The Chase In-Branch ATM Limit is separate from all other limits, which means that withdrawals at a Chase In-Branch ATM do not count towards a cardholder's Other Chase ATM or Non-Chase ATM Limits for the same business. When you use a Chase In-Branch ATM, all withdrawals made with any of a cardholder's ATM or debit cards for the same business count toward every card's Chase In-Branch ATM Limit.

When you use an Other Chase ATM or a Non-Chase ATM, all withdrawals count toward the Other Chase ATM Limits for all of a cardholder's ATM or debit cards for the same business and count toward only that card's Non-Chase ATM Limit.

Special rules for Business Associate Cards:

The Associate Card has daily limits for ATM withdrawals and purchases which are set by the account owner (not to exceed \$1,000 for ATM withdrawals and \$5,000 for purchases). Withdrawals at any ATM count towards the daily limit, and Associate Card withdrawals do not count towards the cardholder's limit on other cards.

CHASE BUSINESS OVERDRAFT SERVICES

An overdraft occurs when you don't have enough money available in your checking account to cover a transaction. We have a Standard Overdraft Practice that comes with Chase business checking accounts and also offer Overdraft Protection and Chase Business Debit Card Coverage, which are optional services that can help pay overdrafts when they occur.

STANDARD OVERDRAFT PRACTICE:

Included with Chase Business Complete Checking, Chase Performance Business Checking, Chase Platinum Business Checking, Chase Analysis Business Checking and interest-bearing counterparts (where applicable).¹

WHAT IT IS:

Our Standard Overdraft Practice may pay, for a fee, overdraft transactions at our discretion based on your account history, deposits you make and the transaction amount. We do **NOT GUARANTEE** we will always pay your overdraft transaction, and if we do not pay your transaction, the transaction will be **declined** or **returned** unpaid. If we return an item unpaid, you may be charged a fee.

WHAT IT PAYS:

- Checks
- Automatic Payments (e.g. recurring phone bill, utility bill, recurring vendor payments)
- Recurring debit card purchases (e.g. subscriptions)
- **NOT** covered: Everyday debit card transactions (e.g. office supplies, everyday expenses)

WHAT IT COSTS:

- **If Paid: \$34 Insufficient Funds Fee per item²**

- **If Check or Automatic Payment is Returned: \$34 Returned Item Fee.**² The same item submitted multiple times by a merchant may result in both a Returned Item Fee and an Insufficient Funds Fee. If we return one of these items, we will only charge you one Returned Item Fee for that item within a 30-day period

- Maximum of 6 of either of these fees per day, for a total of \$204

WHEN IT WON'T BE CHARGED:

- If recurring debit card transaction is Declined: Transaction will NOT go through and you will NOT be charged a fee
- These fees are not charged if your account balance at the end of the business day is overdrawn by \$5 or less, or for items that are \$5 or less
- We will not charge an Insufficient Funds Fee on a debit card transaction if your available balance was sufficient at the time it was authorized, even if your account balance is overdrawn at the time the transaction is presented for payment

Posting Order

Posting order is the order in which we apply deposits and withdrawals to your account. We provide you with visibility into how transactions are posted and in what order to help you better manage your account.

When we transition from one business day to the next business day we post transactions to and from your account during our nightly processing. The order in which we generally post items during nightly processing for each business day is:

- First, we make any previous day adjustments, and add deposits to your account.
- Second, we subtract transactions in chronological order by using the date and time of when the transaction was authorized or shown as pending. This includes ATM and Chase banker withdrawals, transfers and payments; automatic payments; chase.com or Chase Mobile online transactions; checks drawn on your account; debit card transactions; wire transfers; and real time payments. If multiple transactions have the same date and time, then they are posted in high to low dollar order.
 - There are some instances where we do not have the time of the transaction therefore we post at the end of the day the transaction occurred:
 - We are unable to show the transaction as pending; or
 - We don't receive an authorization request from the merchant but the transaction is presented for payment.
- Third, there are some transactions that we cannot process automatically or until we've completed posting of your chronological transactions. This includes Overdraft Protection transfers or transfers to maintain target balances in other accounts. We subtract these remaining items in high to low dollar order.
- Finally, fees are assessed last.

If you review your account during the day, you will see that we show some transactions as "pending." For details, refer to the section "Pending" transactions in the Deposit Account Agreement. These transactions impact your available balance, but have not yet posted to your account and do not guarantee that we will pay these transactions to your account if you have a negative balance at that time. We may still return a transaction unpaid if your balance has insufficient funds during that business day's nightly processing, even if it had been displayed as a "pending" transaction on a positive balance during the day. If a transaction that you made or authorized does not display as "pending," you are still responsible for it and it may still be posted against your account during nightly processing.

Knowing your balance may help you avoid fees

OVERDRAFT PROTECTION:

WHAT IT IS: Allows you to link an Overdraft Protection backup funding account—a Chase business savings account or a Chase business line of credit—to your checking account to help pay any overdraft transactions that may occur. The exact amount needed to cover the transaction will be transferred if enough funds are available.

WHAT IT PAYS: **All transactions**, including everyday debit card transactions

WHAT IT COSTS:

- There is not a fee for an Overdraft Protection transfer; however, an Overdraft Protection transfer counts toward savings withdrawal limits:
 - A **\$5 Savings Withdrawal Limit Fee**, which is a Chase fee, applies for each withdrawal or transfer out of a Chase business savings account over six per monthly statement period. All withdrawals and transfers out of your business savings account count toward this fee, including those made at a branch or at an ATM. This fee is waived for Chase Business Premier Savings accounts with a balance of \$25,000 or more in the account at the time of withdrawal or transfer out
- Business Line of Credit Transfer: You will pay interest as stated in the Line of Agreement

Establishing or Canceling Overdraft Protection: Any owner of both a qualifying checking account and the backup account may enroll in Overdraft Protection without the consent of other owners, and both accounts must share at least one owner to maintain Overdraft Protection. Any owner of the checking account or the backup account may cancel Overdraft Protection (by terminating the service or closing the account) without the consent of other owners. A backup account can provide Overdraft Protection for more than one checking account, but a checking account can have only one backup account. A personal checking account may be linked to a Chase personal savings account; and a business checking account may be linked to a Chase business savings account or a business line of credit in good standing. We may cancel your Overdraft Protection service at any time. Your request to add or cancel Overdraft Protection will become effective within a reasonable time after approval.

Transfers: We will make one Overdraft Protection transfer per business day that will appear on your statement for both accounts. If you have enough available funds in your backup account, we will automatically transfer enough to bring your checking account balance to zero. If you do not have enough available funds in your backup account to bring your checking account balance to zero, but you have enough available funds to pay one or more transactions and/or your previous day's negative balance, we will transfer that amount. If the amount transferred does not bring your checking account balance to zero, your checking account will become overdrawn and you may be charged Insufficient Funds or Returned Item Fees. If we authorize your transaction, we will leave the funds in your backup account until we pay the transaction, which may take several days. However, if you use those funds before the transaction is paid there will not be available funds to make the transfer and your checking account may become overdrawn and charged an Insufficient Funds Fee. The available balance for a savings account is determined at the time that we authorize a transaction or at the end of business day processing. The available balance for a business line of credit is determined at the end of the previous business day processing. We are not required to notify you if funds from the backup account cannot be transferred for Overdraft Protection (for example if the account is dormant, purged, restricted or not in good standing). Refer to the section *Restricting Your Account; Blocking or Delaying Transactions* for additional information.

CHASE BUSINESS DEBIT CARD COVERAGE:

WHAT IT IS: Allows you to choose how we treat your **EVERYDAY DEBIT CARD** transactions. If you don't have Overdraft Protection, or you don't have enough funds in your linked Overdraft Protection backup account, and:

- You select **YES** (default choice), we may pay the overdraft transaction at our discretion based on your account history, deposits you make and the transaction amount. Standard Overdraft Practice fees apply
- You select **NO**, the transaction will be **declined** and you will NOT be charged a fee

Regardless of your Business Debit Card Coverage decision, if you are enrolled in Overdraft Protection and you have enough money in your linked Overdraft Protection backup account, your transaction will be approved and a transfer will be made.

WHAT IT PAYS: Everyday debit card transactions **ONLY**

WHAT IT COSTS:

- **If Paid: \$34 Insufficient Funds Fee per item²**
 - Maximum of 6 fees per day, for a total of \$204
 - This fee is not charged if your account balance at the end of the business day is overdrawn by \$5 or less, or for items that are \$5 or less
