About This Reference Manual

This manual provides a reference list of budget object classification codes to be used by Agencies and Departments serviced by the Office of the Chief Financial Officer (OCFO). These codes are used when obligations are first incurred to record financial transactions according to the nature of services provided or received. The following information will help you use this manual more effectively and obtain further assistance if needed.

How The Manual Is Organized

The major sections of this manual are described below:

[Introduction](#) describes how budget object classification codes are used, provides an interpretive schematic which identifies the levels of coding, and informs you how to obtain technical support.

[Code List](#) provides a reference list of budget object classification codes to be used by Agencies and Departments serviced by OCFO.

To keep you informed about new or changed information related to this publication, OCFO, Associate Chief Financial Officer for Financial Operations (ACFO-FO), Controller Operations Division (COD) issues short written notices called bulletins. This reference manual and related bulletins are located on the [COD Web site](#) on the Publications tab.

What Conventions Are Used

This manual uses the following visual aids to identify certain kinds of information:

- Emphasized text within a paragraph is printed in **bold**.

Example:

All personal property items with an initial acquisition cost of less than \$5,000 should be charged to Object Class 3140 **except** for high risk sensitive property, as defined by the agency, which should be charged to Object Class 3141.

To Request A Budget Object Classification Code (BOC) Update

Important points to remember:

- **All** requests for a new budget object classification code (BOC), or to modify or delete an existing BOC, must be made to OCFO, ACFO-FO, Accounting Policy and Consolidated Reporting Division (APCRD, hereafter referred to as CRD).

- USDA personnel should check the COD Web site, Publications tab, for updates to the BOC Manual.
- Be advised that CRD will use OMB Circular A-11, Section 83, Object Classification (Max Schedule O) criteria to establish new BOCs.

To Request A New BOC

The instructions below must be followed and will facilitate your request.

1. Notify your Functional Administrator (FA) via email.
2. The notification should include:
 - The requestor's name, phone number, and date of the request.
 - Justification for the proposed BOC and why an existing BOC will not fulfill your needs.
 - Proposed title and a short definition. The definition should clearly and succinctly state its intended use.
 - Suggested location in the BOC Manual and Internal Revenue Service Form 1099 flag setting. If any discrepancies exist, CRD will determine the proper location.
3. When the FA receives the request, including the information listed above, the FA will forward it to CRD for review and approval.
4. If approved, CRD will notify CSB and Systems Configuration and Control (SCC) to update Departmental manual and systems, respectively. When processing is completed, CRD will notify the requestor and FA.
5. If the request is denied, other alternatives may be available to facilitate your needs.

To Request A De-Activation/Deletion

If an agency identifies that a BOC is no longer required, please follow the instructions below:

1. Notify your Functional Administrator (FA) via email.
2. The notification should include:
 - The requestor's name, phone number, and date of the request.
 - Justification for removing the BOC.

Note: CRD will periodically conduct a Department-wide analysis of BOC use and recommend de-activations/deletions. Agencies will be notified of such action.
3. When the FA receives the request, including the information listed above, the FA will forward it to CRD for review, approval, and processing.

4. If approved, CRD will notify CSB and SCC to update Departmental manual and systems, respectively.
5. When processing is completed, CRD will notify the requestor and FA.

To Request Clarification Or Modification Of BOC Title Or Definition

Occasionally, the published titles or definitions in the BOC Manual require clarification. CRD will assist in providing a clear title or definition for any BOC. Please follow the instructions below:

1. Notify your Functional Administrator (FA) via email.
2. The notification should include:
 - The requestor's name, phone number, and date of the request.
 - Proposal to clarify or modify a definition. Information should include how the BOC is used in your agency. This information will be compared with how others in the Department are using it so that an accurate definition may be established.
3. When the FA receives the request, including the information listed above, the FA will forward it to CRD for review, approval, and processing.
4. If approval is obtained, CRD will notify personnel, as appropriate, to update Departmental systems and manuals.
5. When processing is completed, CRD will notify the requestor and FA.

Introduction

Budget object classification codes are used by the Federal Government to record its financial transactions according to the nature of services provided or received when obligations are first incurred.

The Office of Management and Budget (OMB) establishes the major object class codes and titles for use by all Federal agencies. In addition to these codes and titles, this procedure identifies summary level object class codes and detail subobject class codes that are assigned by CRD. CRD-assigned codes must be used by Departmental agencies and other Federal agencies that are serviced by the U.S. Department of Agriculture (USDA).

1000 Personnel Compensation and Benefits

BOC	Title	1099 Flag Setting
1403	Commissary Deductions, Forest Service Employees – commissary deductions, Forest Service employees only	N

11 Personnel Compensation**1100 Personnel Compensation**

This object class code covers gross compensation (before tax deductions and other responsibilities) for services of individuals, including terminal leave payments. Included are all payments (salaries, wages, and fees) for services rendered to the Government by its officers or employees, and compensation for special services rendered by consultants or others.

This object class also includes (1) additional compensation such as hazardous duty, night shift differential, holiday, standby, and overtime pay, cost-of-living allowance (COLA), and post differential; (2) salaries for casual time employees; (3) payments to other agencies on reimbursable details; and (4) rewards for information.

Payments that reimburse logging companies, states, etc., for their employees' services should be charged to Object Class 25. However, when these payments are made directly to the employees through Forest Service's (FS) payroll, use Object Class 11.

When supplies are purchased for employees and the costs are deducted from salaries or wages, or when subsistence supplies (commissary) or meals are furnished to employees and the values are added or deducted from salaries or wages, use Object Class 25 or 26.

When a payroll payment combines the employee's salary and reimbursement for equipment rental, the equipment rental amount should be charged to Object Class 21, 22, 25, or 26.

The transaction codes (T/C) that appear with the following subobject class codes may be used on time and attendance (T&A) reports, pay adjustment documents, and Payroll Action Requests to generate the appropriate subobject class codes. The applicable T/C to be used will appear above the appropriate subsection or subobject classifications.

Permanent Full-Time Appointments

This object class covers regular salaries and wages paid directly to civilian full-time employees, other payments that become part of the employee's basic rate of pay, and terminal leave payments. Payments requiring T/C 01 to record regular time on the T&A will generate the appropriate object class code on agency reporting (i.e., 1101 through 1149) depending on the employee's type of appointment.

Permanent appointments are defined as those occupied by full-time employees, including (1) appointments established without a time limit, (2) appointments

established for a limited period of a year or more, or (3) appointments that have been occupied for a year or more regardless of the intent when established. The nature of the appointment is the controlling factor in determining the employee's type of appointment, not the nature of the position.

BOC	Title	1099 Flag Setting

Other Personnel Compensation

All other personnel compensation paid directly to civilian employees, including premium pay and differentials (except for cash allowances for higher cost-of-living locations, which are classified under Object Class 12).

1160 Night Differential

Night differential, which consists of payments above the basic rate for regularly-scheduled night work (i.e., work performed between 6 p.m. and 6 a.m.). This includes the base pay portion of the night differential (T/C 11), a night differential for compensatory time worked (T/C 12), a night differential on Sunday double time (T/C 13), and “over 40” overtime pay with a night differential (T/C 25).

12 Personnel Benefits

1200 Personnel Benefits

This object class code includes cash allowances incidental to employment, payments to the funds for the benefit of currently employed Federal civilian and military personnel, and reimbursements for transfer of station expenses. It also includes special benefits authorized for certain non-Federal personnel.

Benefits provided by the agency to employees, such as uniforms or quarters, which do not fall under the allowance criteria are excluded from this section. Payments to former employees resulting from their employment, such as those described under Object Class 13, are excluded.

This object class includes all Federal personnel benefit payments for Federal civilian employees and special benefits authorized by statute for certain non-Federal civilian employees, whether or not their personnel compensation is classified under Object Class 11. This means that benefit payments for non-Federal employees (e.g., Peace Corps and Volunteers In Service To America (VISTA), Job Corps enrollees), and USDA National Institute of Food and Agriculture (NIFA) agents are within this object class code.

20 Contractual Services and Supplies

2000 Contractual Services and Supplies

21 Travel and Transportation of Persons

2100 Travel and Transportation of Persons

This object class code includes charges incurred for transportation of Government employees or others, their per diem allowances while in an authorized travel status, and other expenses incidental to travel that are to be paid by the Government, either directly or by reimbursing the traveler.

This object class code includes both (1) travel from official stations, subject to regulations governing civilian and military travel and appropriation limitations in certain cases, and (2) local travel and transportation of persons in and around the official station of an employee. It also includes rental or lease of passenger motor vehicles from Government motor pools. In determining subclasses for administrative use, agencies may maintain such distinctions as they deem appropriate including a separate subclass for rental of vehicles from interagency motor vehicle pools.

The following are examples of the different classes (transportation, subsistence, etc.) of travel:

Transportation of Persons. Contractual services for carrying persons from place to place whether by land, air, or water.

Provision of Accommodations Incidental to Actual Travel. Commercial transportation charges, rental of passenger cars, charter of trains, buses, vessels, or airplanes, ambulance service, and expenses incidental to the operation of the rented or chartered conveyances. Rental of passenger motor vehicles from motor pools even though they may be used incidentally for transporting things.

Mileage Allowances for the Use of Privately Owned Vehicles, Ferry Fares, and Toll Charges. Fares for local transportation such as streetcar, subway, and taxicabs, whether used while in travel status or in and around an employee's official station.

Tokens for local transportation ordered by requisition.

Subsistence for Travelers. Payments of per diem allowances to travelers or reimbursement of actual expenses for subsistence (food and lodging). Transportation expenses incident to permanent change of station (PCS). Payments to employees for transportation expenses and per diem allowances or reimbursement of actual travel expenses associated with a PCS (including travel expenses and per diem for the employee's immediate family), as authorized under 5 U.S.C. 5724a. Charges for other PCS expenses are classified under Object Classes 12, 22, or 25, as appropriate.

Incidental Travel Expenses. Other incidental expenses necessitated by travel and claimed for reimbursement on travel vouchers. These include such items as baggage transfers, excess baggage, passports, steamer chairs, rental of conference rooms, rental

of furniture, telephone and telegraph expenses, stamps purchased, and storage fees for Government vehicles. This does not cover miscellaneous expenses not directly related to travel, even though claimed for reimbursement.

Toll charges for telephone calls placed by enumerators while in travel status are covered under Object Class 21.

Charges for calls originating from a traveler's residence are covered under Object Class 23.

Registration Fees. Includes fees that are allowable under the travel regulations.

Travel Expenses of Witnesses. Travel and transportation expenses paid to non-Governmental employees attending Departmental hearings at the direction of the Department.

Charges Not Applicable to Travel Expenses. Such items as routine and ordinary maintenance of vehicles while a person is in travel status should be charged to the appropriate object class.

22 Transportation of Things

2200 Transportation of Things

This object class includes contractual charges incurred for the transportation of things (including animals) and for the care of such things while in process of being transported. Includes postage used in parcel post, rental of trucks and other transportation equipment, and reimbursements to Government personnel for the authorized movement of their household goods and effects or mobile homes. Excludes transportation paid by a vendor, regardless of whether the cost is itemized on the bill for the commodities purchased by the Government.

The following are examples of the different object class codes for the transportation of things:

Freight and Express. Charges by common carrier and contract carrier, including freight and express, switching, reerating, refrigerating, and other incidental expenses.

Trucking and Other Local Transportation. Charges for hauling, handling, and other services incidental to local transportation, including contractual transfers of supplies and equipment.

Mail Transportation. Charges for contractual transportation of mail by water, rail, air, and motor vehicles.

Transportation of Household Goods Related to Permanent Change of Station (PCS) Travel. Payments to Federal employees for transportation of household goods and effects or mobile homes in lieu of payment of actual expenses when payment is for transfer of personnel from one official station to another. Charges for other PCS expenses are classified under Object Class 12, 21, or 25, as applicable.

Charges Not Applicable to the Transportation of Things. Depending on the nature of the articles purchased, freight, shipping, express charges, etc., paid by a vendor must be recorded under Object Class 24, 26, or 31. Also, charges for moving furniture or equipment within a building should be recorded under Object Class 25.

24 Printing and Reproduction**2400 Printing and Reproduction**

This object class covers charges that are incurred for contractual printing and reproduction, the related composition and binding operations performed by the

Government Printing Office (GPO), other agencies, or other units of the same agency (on a reimbursable basis) or by commercial printers. Includes all common processes of duplicating obtained on a contractual or reimbursable basis. Also includes standard forms (SF) when specially printed or assembled to order, and printed envelopes and letterheads. There are several systems used to process the documents related to this object class code.

This object class consists of (1) printing and binding as defined in the Government Printing and Binding Regulations issued by the Joint Committee on Printing and (2) reproduction of the type that does not come within the Joint Committee's definition. In determining the subclass for administrative use, agencies may appropriately maintain such a distinction.

The following information further identifies the types of printing and reproduction work that are covered under Object Class 24:

Duplicating. Multigraphing, reproduction with machines employing photographically made plates, related photo-reproduction work, the use of varityping or other substitutes for typesetting to reproduce by photo-mechanical means, reproduction by the spirit process, mimeographing, and the use of stencils or direct image plates prepared by ordinary typewriters. All common processes of duplicating are included.

Printing. Work performed on printing presses that use printing plates, engraving, embossing, and lithography.

Binding Operations. This covers all costs associated with the above mentioned printing work. Photostatting, blueprinting, photography, and microfilming items such as these are proper charges when the end product is something *reproduced*, rather than *produced*. For example, photographic services or the original development of the film should be classified as Object Class 25, but if a group of prints are produced from the original negative, this is a proper charge for reproduction under Object Class 24.

Photograph as used here includes the complete process from camera to print or film. The processing of Government-owned film is excluded.

Special Order Jobs. Includes items that would normally be considered supplies except that they have been overprinted or specially printed and assembled according to user specifications, e.g., specially printed envelopes or letterheads and overprints of standard forms.

Pamphlets and documents purchased as stock, whether from commercial sources or from the Superintendent of Documents are included under Object Class 26, Supplies and Materials.

Paper is not routinely included in this object class code on the basis that it was ordered from GPO or the printing plant unless a special operation, such as cutting, binding, or punching has been performed.

25 Other Services**2500 Other Services**

This object class includes charges for contractual services that are not otherwise classified. Supplies and materials furnished by the contractor in connection with such services are included even though they may be separately itemized on the voucher. Excludes charges for services in connection with the initial installation of equipment, when performed by the vendor, which are classified under Object Class 31. The term contractual includes both written and oral contracts. There are several systems that process payments for this object class code.

The following information describes the types of services that are included under Object Class 25:

Repairs and Alterations. Charges incurred for repairs and alterations to buildings, bridges, viaducts, vessels, equipment, and similar items when performed under contract.

Storage and Maintenance. Charges incurred for contractual services for storage and care of vehicles and storage of household goods, including those associated with a PCS. Charges for other PCS expenses are classified under Object Class 12, 21, or 22.

Subsistence and Support of Persons. Charges incurred for contractual services for board, lodging, and care of persons, including hospital care (except travel items, which are classified under Object Class 21).

Stenographic Services. Charges incurred for contractual stenographic reporting and typing.

Publication of Notices, Advertising, and Radio and Television Time

31 Equipment

3100 Equipment

Personal property may be categorized as capitalized, non-capitalized, and accountable, or non-accountable.

Capitalized property must meet the following criteria: (1) it must be of durable nature, (2) it must have a useful life of 2 or more years once placed into service, and (3) its initial acquisition cost must be \$25,000 or more, or \$100,000 or more for internal use software. All other personal property not meeting these criteria is classified as non-capitalized.

Accountable personal property is all leased personal property regardless of acquisition cost, and all owned personal property having an acquisition cost of \$5,000 or more. Accountable property is also any item valued less than \$5,000, but determined to be sensitive by the agency. All other personal property is classified as non-accountable.

Personal property can be capitalized and accountable; non-capitalized and accountable; or non-capitalized and non-accountable using the aforementioned criteria. All accountable property is to be recorded in the property subsidiary systems.

The following information further describes the types of equipment covered under Object Class 31:

Transportation Equipment. Charges for vehicles including automobiles, trucks, motorcycles, tractors, aircraft, trains, steamships, barges, power launches, and other vessels.

Furniture and Fixtures. Charges for movable furniture, fittings, fixtures, and household equipment. This includes desks, tables, chairs, etc.

Firearms

Publications for Permanent Collections

Tools and Implements

Machinery. Charges for engines, generators, manufacturing machinery, transformers, ship equipment, pumps, tractors, and other production and construction machinery.

Instruments and Apparatus. Charges for surgical instruments, X-ray apparatus, signaling equipment, telephone and telegraph equipment, electronic equipment, scientific instruments and appliances, measuring and weighing instruments and accessories, photographic equipment, picture projection equipment and accessories, and mechanical drafting devices.

Information Technology Software. Software (1) purchased off-the-shelf, (2) contractor-developed, or (3) internally developed.

Information Technology Hardware. Includes central processing units (CPUs), modems, peripheral input/output devices, control units, data entry machines, signaling equipment, telephone and telegraph equipment, personal computing devices, monitors, servers, uninterruptible power supplies (UPS), and large-scale system integration services. May also include mainframe, mid-tier, and workstation computers. **Note:** There are BOC's for personal computers and non-personal computers.

32 Lands and Structures

3200 Lands and Structures

This object class covers charges for land and interest on land, buildings, and other structures, additions to buildings, non-structural improvements, and fixed equipment (whether an addition or a replacement).

Property in this object class may be characterized as capitalized, non-capitalized, accountable, or non-accountable.

Capitalized property must have an initial acquisition cost of \$25,000 or more. All other property is classified as non-capitalized. Accountable property in this object class is all property having an acquisition cost of \$25,000 or more. Property can be both capitalized and accountable, or non-capitalized and non-accountable according to the aforementioned criteria.

Effective for fiscal year 2003, the real property accountability and capitalization thresholds are \$25,000.

The following information further describes the types of property covered under object class 32:

Lands and Interest on Lands, Including Easements and Rights-of-Way

Buildings and Other Structures. Charges for additions to buildings and acquisition or construction of buildings. Includes principal payments under lease-purchase contracts for construction of buildings.

Non-structural Improvements. Charges for improvements to land, such as landscaping, fences, sewers, wells, and reservoirs.

Fixed Equipment. Charges for fixtures and equipment that become permanently attached to or a part of buildings or structures, such as elevators, plumbing, power-plant boilers, fire-alarm systems, lighting and heating systems, and air conditioning or refrigerating systems (whether an addition or a replacement). Includes charges for services in connection with the initial installation of fixed equipment. This also includes telephone systems.

33 Investments and Loans

3300 Investments and Loans

This object class includes charges for (1) the purchase of stocks, bonds, notes, and other securities (except for par value of Government securities or securities of wholly-owned Government enterprises); (2) expenditures in the nature of capital for other funds; (3) loans to foreign governments, states, and other political subdivisions; and (4) loans to corporations, associations, and individuals.

3310 Investments in Securities

The purchase of stocks, bonds, debentures, and other securities (except par value of Government securities) in which money is invested either temporarily or permanently. This should include the amounts paid for interest accrued at the time of purchase and premiums paid on all investments, including payments over par value on Government securities and discounts under par value on sales of Government securities.

3320 Loans

Loans to foreign governments, states, and other political subdivisions; loans to other Government agencies; and loans to corporations, associations, and individuals.

3330 Investments in Other Funds

Capital payments to revolving trust funds or other funds that are expected to be returned when the enterprise is liquidated, transferred, or sold. Excludes non-expenditure transfers between funds.

3360 PLCE (Program Loan Cost Expense) Recoverable Payments to Vendors

3367 Rental Equipment Invalid

40 Grants and Fixed Charges

4000 Grants, Indemnities, and Interest

41 Grants, Subsidies, and Contributions

4100 Grants, Subsidies, and Contributions

This object class covers (1) grants (including revenue sharing), subsidies, gratuities, and other aid for which cash payments are made to states, other political subdivisions, corporations, associations, and individuals; (2) contributions to international societies, commissions, proceedings, or projects, whether in lump sum or as quotas of expenses; (3) contributions fixed by treaty; (4) grants to foreign countries; (5) taxes imposed by taxing authorities where the Federal Government has consented to taxation (excluding the employer's share of FICA taxes); and (6) payments in lieu of taxes. Includes readjustment and other benefits for veterans, other than indemnities for death or disability.

Obligations under grant programs that involve the furnishing of services, supplies, materials, and similar items rather than cash are not charged to this object class but to the object class representing the nature of the services, articles, or other items that are purchased.

Cash payments to states under the Clark-McNary and similar acts will be covered under Object Class 41. However, purchase of supplies or materials to be turned over to the states in lieu of direct cash payments are chargeable to an object class in the 2600 series. Similarly, the payment of other types of expenses for the states in lieu of direct payments should be charged to the applicable object class.
