

HEALTH SCIENCE PROGRAMS ADMISSION CRITERIA AND PROGRAM APPLICATION PERIODS

Effective dates are for January 2018, May 2018 and August 2018 Admission Periods

For admission information, send an email to the Admission office at healthscience@broward.edu

- Specific program application periods are noted in the middle column of each row.
- If the application period ends on a weekend day or holiday, the last day applications will be accepted is the following business day.
 - **Required courses shown in the application criteria may NOT be covered by Financial Aid.**
 - Admission Decisions are made **30 BUSINESS DAYS** following the close of noted application period.
- Complete program overviews are available in the [College Catalog](#); [BC website](#) and clicking on each program name within this document

NOTE: Science Courses completed more than 10 years ago must be evaluated to determine if they will need to be repeated.

Program Application/Admission Criteria

Program Cert/Degree type	2017-2018 Application Criteria Program courses must be completed with a minimum grade of 'C.'	Application Period	2017-2018 Admission Selection Criteria	Additional Information
<p>Medical Assisting (College Credit Certificate) CCC</p> <p>Program Number: 6353</p> <p>Central Campus</p>	<ul style="list-style-type: none"> Entry into BC requires a standard high school diploma or GED. Applicants must complete the Health Science limited access program admission application and requirements. If selected for admission, candidate must complete the required health science screenings (background checks, drug screening, complete physical and current CPR card from the American Heart Association (BLS for the Healthcare Provider) to retain seat in the Medical Assisting program. <p>For more information on the Medical Assisting Program, please visit the link below:</p> <p>http://www.broward.edu/academics/programs/medicalassisting/Pages/default.aspx</p>	<p>Jan 8 - Apr 15</p> <p>Begins in August</p>	<ul style="list-style-type: none"> High school diploma or GED Date of application 	<p>The program admits between 18 and 21 students per year.</p>

Application periods noted “**open until all seats are filled**” means that students are allowed to submit an application for consideration to a specific program until all available seats are filled.

Notification of Acceptance

Admission decisions are accessible on the students myBC account by clicking on the Limited Access Application Status icon located at the bottom of the page.

Students selected for a Health Science program will be notified by the Health Science Admissions Department via their BC e-mail account within 30 business days after the application deadline date. For open ended programs, students will be notified by the Health Science Admissions approximately 60 days prior to the start of the program.

Students selected will be required to respond to the e-mail notice to accept or decline the admission by deadline date provided in the email. Failure to reply will forfeit the seat in the program and will require student to reapply.

Admitted students to respective programs are notified of a mandatory Pre-Admission Meeting through their BC email. Upon notification of acceptance, students are required to acknowledge their attendance. Any student who does not attend the mandatory Pre-Admission Meeting may forfeit their seat in the incoming class.

Criminal Background Check, Drug Screening, and Physical Examination Requirements (completed after acceptance)

Criminal Background Check and Drug Screening

Students applying to a Health Science program are subject to a criminal background check and drug screening which is required prior to attending any clinical practicum while enrolled in the program. A student needs to be aware that participation and placement may be denied at a clinical agency based on the background or drug screening results and/or the clinical agency's pre-employment screening policy.

Should such denial occur, the Health Science program cannot guarantee placement at an alternative facility. Withdrawal from the program may be necessary if a student cannot meet requirements as they relate to a specific clinical site.

An unsatisfactory Level II FBI background check and/or drug screen may delay the admission process and lead to possible ineligibility for admission into a Health Science program.

If a student is admitted to the College based on their background check and screening and is allowed to complete a clinical experience, it does not guarantee the student will be eligible to sit for the certification or licensing exam. Pursuant to Section 456.0635, Florida Statutes, effective July 1, 2009, health care boards shall refuse to issue a license, certificate or registration and shall refuse to admit a candidate to sit for the examination if the applicant has been:

1. Convicted or plead guilty or nolo contendere to a felony violation regardless of adjudication of: chapters 409, 817, or 893, Florida Statutes; or 21 U.S.C. ss. 801-970 or 42 U.S.C. ss 1395-1396, unless the sentence and any probation or pleas ended more than 15 years prior to the application.
2. Terminated for cause from Florida Medicaid Program (unless the applicant has been in good standing for the most recent five years).
3. Terminated for cause by any other State Medicaid Program or the Medicare Program (unless the termination was at least 20 years prior to the date of the application and the applicant has been in good standing with the program for the most recent five years).

Health Science graduates are subject to the laws, policies, and procedures of their respective regulatory or licensing boards. These regulations are outside the control of the College. Students should read all guidelines provided by regulatory or licensing boards to ensure that they can comply prior applying to a Health Science program or persisting to completion of any program that requires licensure or certification from an entity not governed by the College.

Health Examination

A Medical History and Physical Health Form must be completed at the time specified by the program. Final acceptance or continuation in a program will be contingent upon the results of the physical examination submitted prior to attending the first clinical rotation and then repeated in the second year of the program. A student may not enroll in a clinical course unless the Health Form has been submitted and then reviewed by the program for completion of all listed requirements.

Health Science programs begin each August, with the exception of the following programs:

Name of Program	When Program Begins
<i>Nursing</i>	
Classroom	Each term
