HP ALM QC on SaaS Solution

HP ALM QC ON SAAS

Shared offering

The Shared HP QC offering is an on-demand (SaaS) multi-tenant solution for quality management. Built on HP Quality Center, the Shared HP QC offering enables project teams to start using the right toolset in a matter of hours rather than days or weeks. Based on the aspects of quality management that are essential to running projects, quality assurance teams can pick the modules they need for how long they need them, and scale up and down as the project evolves. Whether or not a license has been purchased, the offering is available on a subscription basis, thereby accommodating the timelines and budget of any project.

	Shared
Tenancy	**Multi**
Start within	**24 hours**
Minimum Term	**1 month**
Minimum number of users	**1**
Available contract terms	**1 month to 5 years**
#of Projects	**Limited to # of users**
Licensing model	**Service-only, Bundle**
Assigned Client Manager	**x**
Training, Mentoring	**x**
Customisations services	**x**

Dedicated offering

Built on the HP Application Lifecycle Management platform, the Dedicated HP ALM/QC single-tenant offering enables teams and organisations to start leveraging a complete application lifecycle management toolset in a matter of days rather than weeks or months. Application teams can choose HP ALM/QC modules based on key aspects of application lifecycle management, and customise or expand the platform to fit their practice. Whether or not a license has been purchased, the offering is available on a subscription basis, thereby fitting the timelines and budget of any organisation.

	Dedicated
Tenancy	Single
Start within	Max 10 days

Minimum number of users	10
Available contract terms	12 months to 5 years
#of Projects	Limited to # of users
Licensing model	Service-only, Bundle
Assigned Client Manager	x
Training, Mentoring	x
Customisations services	x

Advanced offering

Built on the HP Application Lifecycle Management platform, the ADVANCED HP ALM single-tenant offering enables global and dispersed teams to have access to a client account manager (CAM) whose primary responsibility is software adoption and service compliance with the customer's requirements. The customer also has access to a pool of HP ALM experts who provide value-added services as a follow-up to customers' requests. This includes (but is not restricted to) master project templates, customised reports, cross-project reporting, on-going training and mentoring, and delta training versus new functionalities. Such value-added services are bundled in the offering pricing.

	Advanced
Tenancy	Single
Start within	Max 10 days
