Mental Illness/Intellectual Disability/Related Conditions Identification

Instructions for Completing Level I Screening

This form is used to identify prospective and current nursing facility residents who meet the criteria for possible mental illness or intellectual disability, or a related condition and who may be in need of mental health services.

Sections II and III must be completed by a registered nurse, licensed bachelor or master social worker, licensed professional counselor, psychologist, physician's assistant, nurse practitioner or physician.

Preadmission Screening or Hospital Exempted Discharge: The referral source completing the Level I Screening (DCH-3877), must complete and provide a copy to the proposed nursing facility **prior to admission. Check the appropriate box in the upper right hand corner.**

Annual Resident Review or Change in Condition: This form must be completed by the nursing facility. **Check the appropriate box in the upper right hand corner.**

Section II – Screening Criteria – All 6 items in this section must be completed. The following provides additional explanation of the items.

1. **Mental Illness:** A current primary diagnosis of a mental disorder as defined in the American Psychiatric Association Diagnostic and Statistical Manual of Mental Disorders.

   Current Diagnosis means that a clinician has established a diagnosis of a mental disorder within the past 24 months. Do NOT mark "Yes" for an individual cited as having a diagnosis "by history" only.

2. **Receipt of treatment for mental illness or dementia within the past 24 months** means any of the following: inpatient psychiatric hospitalization; outpatient services such as psychotherapy, day program, or mental health case management; or referral for psychiatric consultation, evaluation, or prescription of psychopharmacological medications.

3. **Antidepressant and antipsychotic medications** mean any currently prescribed medication classified as an antidepressant or antipsychotic, plus Lithium Carbonate and Lithium Citrate.

4. **Presenting evidence** means the individual currently manifests symptoms of mental illness or dementia, which suggests the need for further evaluation to establish causal factors, diagnosis and treatment recommendations. Further evaluation may need to be completed if evidence of suicidal ideation, hallucinations, delusion, serious difficulty completing tasks or serious difficulty interacting with others.

5. **Intellectual Disability/Related Condition:** An individual is considered to have a severe, chronic disability that meets **ALL** 4 of the following conditions:

   a. It is manifested before the person reaches **age 22**.
   b. It is likely to continue indefinitely.
   c. It results in substantial functional limitations in **3 or more** of the following areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction, and capacity for independent living.
   d. It is attributable to:
      - Intellectual Disability such that the person has significant subaverage general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period;
      - cerebral palsy, epilepsy, autism; or
      - any condition other than mental illness found to be closely related to Intellectual Disability because this condition results in impairment in general intellectual functioning OR adaptive behavior similar to that of persons with Intellectual Disability, and requires treatment or services similar to those required for these persons.

6. **Presenting evidence** means the individual manifests deficits in intellectual functioning or adaptive behavior, which suggests the need for further evaluation to determine the presence of a developmental disability, causal factors, and treatment recommendations. These deficits appear to have manifested before the age of 22.

NOTE: When there are one or more "Yes" answers to items 1 – 6 under SECTION II, complete form DCH-3878, Mental Illness/Intellectual Disability/Related Condition Exemption Criteria Certification only if the referring agency is seeking to establish exemption criteria for a dementia, state of coma, or hospital exempted discharge.
