Perform Voice Communications
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Headquarters Training and Doctrine Command Center for Initial Military Training (CIMT) Fort Eustis foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: Given: 1. One operational radio set for each net member, warmed up and set to the net frequency. 2. A call sign information card (5 x 8) consisting of: Net member duty position (S-1, S-2), net call sign (letter-number-letter), suffix list (Net Control Station [NCS] - 46, S-1 - 39, S-2 - 13), and a message to be transmitted. 3. Situation: The net is considered to be secure and authentication is not required. 4. ACP 131, Note: This task may have as many net members as there is equipment available. Each net member must have a different suffix and message to transmit.

Standards: Perform voice communications by entering and leaving the net in alphanumeric sequence and use of correct prowords, phonetic alphabet, and numerals that result in successful communication of the message.

Performance Steps

1. Enter the net.

- a. Determine the abbreviated call sign and answering sequence for your duty position.
- b. Respond to the NCS issuing a net call (figure 1).
- c. Answer in alphanumeric sequence.
Note: At this time, the NCS acknowledges and the net is open.

2. Send a message.

- a. Listen to make sure the net is clear. Do not interrupt any ongoing communications.
- b. Call the NCS and tell the operator the priority of the message you have for his or her station.
- c. Receive a response from the NCS that he or she is ready to receive.
- d. Send your message using the correct prowords and pronunciation of letters and numbers. (See tables 2 through 5 and figure 2.)
- e. Get a receipt for the message.

3. Leave the net in alphanumeric sequence.

Note: The NCS acknowledges and the net is closed. Note: The following call signs are used in this task as an example: Net call sign - E3E, NCS - E46, S-1 - E39, S-2 - E13.

- a. Answer in alphanumeric sequence.
- b. You receive a call from the NCS who issues a close down order (figure 3).

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Evaluators:

Score the Soldier a go if they can successfully enter the NET, sends a message, receives verification that the message was received, and correctly leaves the net.

Score the Soldier a NO-GO if they fail to successfully enter the NET, or failed to get a received message receipt or correctly leaves the net.

Evaluation Preparation: Evaluators: Verify that you have the following prior to evaluating the Soldiers on this task: 1. One operational radio set for each net member, warmed up and set to the net frequency. 2. A call sign information card (5 x 8) consisting of: Net member duty position (S-1, S-2), net call sign (letter-number-letter), suffix list (Net Control Station [NCS] - 46, S-1 - 39, S-2 - 13), and a message to be transmitted. 3. Situation: The net is considered to be secure and authentication is not required. 4. ACP 131.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Entered the net in alphanumeric sequence.			
2. Sent a message of 15 to 25 words using the correct prowords and phonetic alphabet and numerals.			
3. Left the net in alphanumeric sequence.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
