Brighthouse Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Series VA Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.30% and the annual Account Fee of \$30†. These results do not reflect the withdrawal charges which begin at 7% and decrease over 7 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

Series VA Non-Standardized Performance: Without surrender charges applied as of 08/31/2020

¹This portfolio invests in a "feeder fund" that does not buy investment securities directly but instead invests in shares of a corresponding American Fund "master" fund, which in turn purchases investment securities. The performance of the feeder fund reflects the performance of the underlying master fund from the inception date for the underlying master fund, (American Funds Growth Fund - 2/8/84), however it also reflects the additional 0.55% 12b-1 fee assessed against the feeder fund. Therefore the return of the feeder fund is lower than that of the master fund. The inception date for the feeder funds was 4/28/2008.

Certain optional benefit riders have investment allocation restrictions. Not all investment portfolios are available for all product and/or optional benefit riders. Please see the product prospectus for more information.
