The List from Dynamic Communities is your tool for finding the solutions available from Microsoft Dynamics® Partners. Review the various industry, horizontal, and service offerings available and you may just find exactly what you've been looking for! The List is unique in that it shares only those solutions and services that work with the Microsoft Dynamics product line. We want you to spend time using the solution, not looking for it. If you have a product or service that you would like included on The List, please contact Jane.Olson@dynamiccommunities.com.

NOTE: Dynamic Communities offers no expressed or implied warranty or guarantee for any of the products included in this directory. Support and quality assurance of these software products and services are solely the responsibility of each Microsoft Dynamics Partner.

\*Due to the nature of the "classified" format used for The List, Microsoft Dynamics brand guidelines may not have been followed. We encourage Partners NOT to follow the example we are setting!
